

PRESS RELEASE: Announcement for Nina Hayden, Democrat for Senate, District 16.

In a time of financial crisis, it is crucial to create sound solutions to fix the problems of the State of Florida for the long term. In less than two years when the money given by the Federal Government will no longer be able to sustain the budget, it is imperative we have new leadership that will look forward with new ideas and new solutions to bring change to Tallahassee.

Moving forward strong leadership towards positive change in education, healthcare and the environment will have a profound impact on the lives of citizens across the State. We must have strong leadership that exemplifies integrity and civility in word and deed, in the campaign process and in the chambers of Tallahassee.

This is why I have decided to run for Senate District 16 of the State of Florida. For more information including campaign updates visit ninahayden.com.
