SCHOOL BOARD
OFFICE

To Whom It May Concern:

000019

I'm submitting the enclosed resume for consideration in the school board's search for a new superintendent.

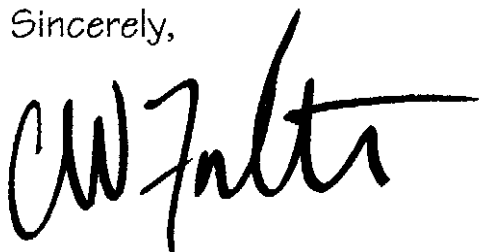

While my qualifications may seem somewhat untraditional, the last thing our school district needs, quite frankly, is another administrator. The new superintendent should be a person of vision, someone who can see beyond fanciful flavor-of-the-month approaches to fixing "the system" that have, ironically, only served to make matters worse.

Give me a child that's at grade-level in middle school and I'll give you a likely high school graduate. All kids want to learn, some just lose their motivation; ensuring that students are provided with proper direction early and often should, I believe, be the new superintendent's primary mandate.

I have a variety of specifics regarding ways Pinellas County schools can be improved and I'd be happy to share them with the board. For the time being, suffice it to say that I feel the basic educational model can be made to work so long as common sense—as opposed to nonsense—is dutifully employed.

Thanks for your time and best wishes for a successful search.

Sincerely,

Chris W. Fulton
